

Welcome to Orbaic! These Terms and Conditions ("Terms") govern your use of the Orbaic platform, including the website orbaic.com, the blog blog.orbaic.com, and any related services. By using Orbaic, you agree to comply with and be bound by these Terms. If you do not agree with these Terms, please refrain from using our platform.

1. Project Overview

a. Sustainable Decentralization:

Orbaic is currently in the developmental phase for its blockchain project, which involves the creation of a 1-layer blockchain system to manage the ACI token. As part of our decentralized finance mining contract system, users can engage in a pre-mining process for ACI tokens using designated applications accessible on the Play Store. It's important to emphasize that the terminology employed on our platform, including terms like "mining" and "tokens," is metaphorical and not to be taken literally. These terms are used for the purpose of enhancing comprehension and analogy within the decentralized finance mining contract system.

2. Mining Apps

a. Transparent Governance:

-Orbaic currently offers users the opportunity to mine ACI tokens through dedicated apps available for free download on the Play Store. Users can participate in the mining process, which involves sharing tokens directly with others through smart contract systems.

3. Risks and Disclaimers

a. Third-Party Mining Pool:

-Orbaic's mining pool is not a person and is typically beyond the full control of any individual. Once initiated, it may be impossible to pause or reverse. In case of malfunction, exploitation, or underperformance, the mining pool cannot be compelled to refund "earned" tokens.

b. Understanding Risks:

-Users are advised to thoroughly understand the unique risks associated with Orbaic before participating. The platform's nature differs from traditional financial transactions, and a comprehensive understanding of relevant technical systems and incentive designs is crucial.
